

Meritor Parts

Meritor Parts - Meritor is a premier international supplier that is proudly built on a one hundred year tradition of service and quality. They specialize in a broad range of integrated systems, modules and parts to original equipment makers and the aftermarket for the transportation and industrial sectors.

Meritor values the needs of their customers to ensure their success while priding itself in the company's unique energy and thinks this output of energy to be their aggressive advantage in their international operations. Meritor begins with a culture that values diversity of individuals and their broad thought processes. Operating in 19 countries and employing over 11,200 individuals, Meritor promotes collaboration and innovation among a team of knowledgeable experts.

Meritor strongly believes in only hiring future focused workers. These top-caliber workers could rapidly adapt to changing surroundings and freely exhibit the level of commitment and performance required so as to attain results for the competitive market environment. The company empowers their teams to make sound business decisions so as to improve the overall success of the company. In return, Meritor offers all of their workers various possibilities for professional and personal development.

The Advanced Engineering team is on the forefront of components and system engineering. This consists of axles, drivelines, braking and suspension systems meant for medium and heavy duty trucks, buses, military vehicles, trailers and off-highway vehicles. The Meritor Advanced Engineering team is growing. They opened a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives which represent the whole Asia Pacific region. This team is likewise responsible for supporting the needs of all their worldwide engineering employees.

Meritor's dynamic and customer focused Quality team is committed to ensuring optimum processing at their production plants and aftermarket distribution facilities that are situated all over the globe in 19 countries and in 5 different continents.

The supplier development network is specially located to support new business growth. Regional teams are supported by international initiatives, quality systems and centralized specialties in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program promotes a data-driven, fact-based approach to decision making within each and every aspect of the trade. The DFSS or Design for Six Sigma ensures product reliability within each and every region. The team is even comprised of transactional Green Belts who make use of Six Sigma tools to business techniques and implement lean methods.
